## Circular regarding Newspaper Reading

**Grade: III-V**

**Dear Parent,  
Greetings of the day!**

In today's fast-evolving digital world, nurturing the habit of reading newspapers in children is more important than ever. Newspapers serve as a powerful tool to enhance vocabulary, improve general awareness, and develop critical thinking skills. They open a window to the world, helping children understand current events, cultures, and important global issues.

To encourage this valuable habit, the school is introducing a specially designed children's newspaper, "**Young World**", which will be provided every **Friday for 40 weeks**, starting **May'2026**.

Teachers will conduct engaging classroom activities based on the newspaper to make learning interactive and enjoyable.
